Colorado Water Congress: Memberships

The Colorado Water Congress offers membership opportunities for organizations and individuals. Our 400+ organizational members and hundreds of individual members represent the interests of every sector of the water industry from across the State.

Colorado Water Congress members gain a tremendous advantage from access to a powerful combination of premier events, networking and professional development opportunities. What's more, membership brings the opportunity to share your ideas about water issues and be part of the leading voice of Colorado's water community.

Student - $25/annually	For: Students and professionals in the first two years of their career in the water industry. Benefits include: Attendance at CWC events at the member rate; regular member communications and policy updates.
